

LEGEND

- SPECIAL FLOOD HAZARD AREAS INUNDATE BY 100-YEAR FLOOD**
 - ZONE A** - In some flood elevations determined.
 - ZONE AE** - Base flood elevations determined.
 - ZONE AH** - Flood depths of 1 to 3 feet locally above base flood elevations.
 - ZONE AO** - Flood depths of 1 to 3 feet locally above base flood elevations; average depths indicated; for areas of shallow flooding depths also determined.
 - ZONE A99** - In some flood elevations determined; for areas of shallow flooding depths also determined.
 - ZONE V** - Coastal flood with velocity hazard (waves) in some flood elevations determined.
 - ZONE VE** - Coastal flood with velocity hazard (waves) in some flood elevations determined.
- OTHER FLOOD AREAS**
 - ZONE X** - Areas of 100-year flood, areas of 500-year flood with average depths of less than 1 foot, or with average areas less than 1 acre, and areas protected by levees from 100-year flood.
 - OTHER AREAS**
 - ZONE X** - Areas determined to be within 100-year flood.
 - ZONE D** - Areas in which flood barriers are undeveloped coastal barriers.
- UNDEVELOPED COASTAL BARRIERS**
 - Shaded** - Shaded
 - Shaded** - Shaded
 - Shaded** - Shaded

 - RM 3** - RM 3
 - RM 2** - RM 2
 - RM 1** - RM 1

NOTES

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify all areas subject to flooding, particularly those that are not subject to the 100-year flood, or all structures. Therefore, flooding should be determined by the most detailed data on file, and for any information on flood insurance, refer to the map for property location or construction purposes.

Areas of Special Flood Hazard (100-year Flood) include Zone A, AE, AH, AO, A99, V, VE, and X.

Coastal areas not in Special Flood Hazard Areas may be protected by flood control structures.

Boundaries of the boundaries were computed of water surface and structural features. The boundaries were based on available information and are subject to modification by the Federal Emergency Management Agency.

Flooded areas in some maps may be less than or more than shown in Floodway Data when boundary width is shown at 1:50 scale.

Coastal flood elevations are based on the date of this map. The most recent coastal elevation information is available in the National Flood Insurance Program Act of 2004 (PL 108-367).

The map may incorporate appropriate boundaries of Coastal Boundaries, National Coastal Zone, and U.S. Geological Survey boundaries established by the National Flood Insurance Program Act of 2004 (PL 108-367).

For complete map details, refer to complete map, see Section 6.0 of the Flood Insurance Study Report.

The following map sheets and base maps were used in preparing this map sheet:

MAP REPOSITORY
Refer to Repository Listing and Map Index
FLOOD INSURANCE RATE MAP EFFECTIVE DATE:
SEPTEMBER 11, 2007
EFFECTIVE DATES OF REVISIONS TO THIS PANEL:
SEPTEMBER 11, 2007
FLOOD INSURANCE RATE MAP REVISIONS
Refer to the FLOOD INSURANCE RATE MAP EFFECTIVE DATE above on this map to determine when various rates apply to structures in the areas where revisions or depths have been established.

The adoption of flood insurance is voluntary, subject to the insurance agent or the National Flood Insurance Program at (800) 438-6622.
