

AUTOPAY

The Department of Water Works is pleased to announce a new payment program called AUTOPAY.

The Department of Water Works can now allow you to pay your Water and Sanitation bill through your banking institution. This program works similar to that of how you may be paying your Electric/Gas Utility bill.

After providing the required banking information your account will be set up to be automatically charged on the due date each month. To set this up please print and complete the AUTOPAY enrollment form and mail it along with a voided check:

Department of Water Works of Michigan City
