Midtown Neighborhood Plan Visioning Session

Michigan City, IN – The Midtown neighborhood of Michigan City is in the middle of creating its Midtown Neighborhood Plan.

Neighborhood Location: The Midtown neighborhood is bounded by 11th Street to the north, Poplar Street north of Barker Avenue and Tilden Street south of Barker Avenue to the east, the railroad tracks to the south, and the railroad right-of-way to the west (map provided).

Meetings were held Fall 2015 to gather input from residents, business owners, non-profit entities, elected and appointed officials, and the general public. A random sample survey was conducted in the neighborhood to collect additional input.

This week is when Midtown starts to identify what it wants for the future and how it will go about positioning itself to achieve the desired results.

Midtown residents, business owners, and other neighborhood helpers, please come share your vision for the future of the Midtown neighborhood this Thursday, January 21, 2016, at 5:30pm.

Note the new meeting location in the heart of the Midtown neighborhood – Franciscan St. Anthony Health’s St. Francis Hall (lower level). This room is easily accessible from the Main Entrance of the hospital. Take the elevator behind the main desk to the lower level.

The big question to consider: What should Midtown be like in 10 years?

The Visioning Session will be facilitated by Rose Scovel from Indiana Association for Community Economic Development.

If you have a question about the upcoming meeting, please contact Assistant City Planner Jessica Gage at jgage@emichigancity.com or (219) 873 1419 Ext. 323.
