## **Snow Melt Warning**

Michigan City, IN – Mayor Chuck Oberlie issued the following statement today:

“The National Weather Service has issued a Hazardous Weather Outlook statement for our area indicating that areas of fog will develop overnight on Friday and could last through Sunday morning. The Weather Service cautions for widespread fog that may be dense in some locations.

Additionally, due to the rapid rise in temperature and the significant amount of snow on the ground, Sanitary District staff have been working since mid-week to clear street catch basins of snow and ice to help keep our streets as dry as possible. Sanitary District crews will be working on Saturday to open as many drains as possible. Citizens can assist with this effort by clearing snow from drains where possible in their neighborhoods.”
