IV. Invitation to sign onto this letter: *Join us in Telling the EPA to Regulate Toxic Legacy Coal Ash Sites!*
Please join us in standing for up for Northwest Indiana and all Lake Michigan communities by adding your signature to our sign-on letter to the Environmental Protection Agency (EPA) Region 5 demanding that the agency update their federal Coal Combustion Residual (CCR) Rules to include the 300 inactive "legacy" coal ash landfills.
Those sites include the lakefront facilities, the Michigan City and Waukegan Generating Stations, that are currently exempted from live-saving health regulations. The majority of these sites are leaking toxins and contaminating drinking water and surface waters, including Lake Michigan, and devastating communities across the country. This environmental justice crisis must be addressed immediately!
Thank you for filling out this form and standing with us.
In solidarity, Just Transition Northwest Indiana (JTNWI) Team
