**Urgent/Emergency Sewer Repair**  
**500 Block of Dupage Street**

Michigan City, IN --- Sanitary District General Manager, Michael Kuss, would like to inform the public that the Michigan City Sanitary District (District) will be conducting Urgent/Emergency Sewer Repair Work to the sanitary sewer on the 500 Block of DuPage Street, Michigan City, Indiana. The project will be conducted by the District's contractor Woodruff and Sons, Inc. The work is scheduled to begin on Thursday, August 31, 2017 and should conclude by Thursday, September 7, 2017, however, Woodruff and Sons, Inc. believes there is a chance that the project could be completed as soon as Friday September 1, 2017.

The approved Traffic Control Plan will close 500 Block of DuPage Street between Elm and Maple Streets. The DuPage Street traffic will be detoured to Thurman Avenue and Pearl Avenue. The residents on DuPage Street should have no interruption in water or sewer service, and the Contractor will work with these residents on temporary parking arrangements during this project.

Any resident that has special needs should contact the Woodruff and Sons at 219-872-8605, to discuss arrangements.

All other questions should be directed to Jim Micheals, Assistant Superintendent, Sanitary District, at 219-898-3209 or via email at [jmicheals@mcsan.org](mailto:jmicheals@mcsan.org).
