

Build *and* Fly

EAA Chapter 966 AMA Club 5504

Hands on learning. Lots of fun!

Join us on Saturday's from 9:00am - 11am for the Build and Fly Workshop. We will be teaching students about aviation by hands on activities. The students will work together to build a model aircraft, as well as other fun projects to learn about the skills needed to build their own model plane. Some of the skills learned will be the same skills needed for constructing a full size aircraft!!

Students will start using a flight simulator, progress to a training plane, and then once the build is complete, they can graduate to flying the model airplane that they helped to construct.

Parents or guardians encouraged to come and learn along with their children.

Ages: 12 - 18

Dates: Saturdays starting October 29, 2022 - March 2023

Time: 9am - 11am

Cost: \$15 per student registration fee

Place: Michigan City Airport

We meet at the Michigan City Airport terminal building parking lot, and drive as a group to the EAA Clubhouse Hangar where the build takes place.

Questions: Contact Brooke Miller (219) 210-8011
